

CONTENTS

Preface	IX
Scientific Programme.....	1
Author Listing	221

MULTIMEDIA TECHNOLOGIES

MPEG-21 Digital Item Processing Architecture Frederik De Keukelaere, Wesley De Neve, Peter Lambert, Boris Rogge and Rik Van de Walle	5
Metadata-Based access to Complex Digital Objects in Multimedia Archival Collections Jeroen Bekaert, Robbie De Sutter, Rik Van de Walle and Emiel De Kooning	10
My_Eliza, a Multimodal Communication System Siska Fitrianie and L.J.M. Rothkrantz.....	14
Emotion Extraction Engine: Expressive Image Generator Xu Zhe, David John and Anthony C. Boucouvalas	23
Genetic Programming of Vertex Shaders Jörn Loviscach and Jennis Meyer-Spradow	29
Low Cost Approach to Acoustic Field Enhancement for Stereo Headphones Nobuyuki Iwanaga, Wataru Kobayashi, Kazuhiko Furuya, Noriaki Sakamoto, Takao Onoye and Isao Shirakawa	32
A New Approach to Speech Synthesis Based on Fractal Dimension S. Fekkai and M. Al-Akaidi	37

NETWORK APPLICATIONS

New Approach for Online Case-Based Reasoning Web-Services in Knowledge Management Applications H.-Joachim Nern, Tanja Atanasova, Friedbert Pautzke and Susan Johnson.....	43
---	-----------

CONTENTS

Designing and Developing an Effective Recommendation System for eCommerce Stores
Penelope Th. Markellou, Maria I. Rigou, Athanasios K. Tsakalidis, Konstantinos Th. Markellos,
and Spiros P. Sirmakessis.....50

Database Design for Multiuser Collaboration in VRCASE Tool
Qingping Lin, Jim Mee Ng, Chor Ping Low, Juan Bu and Xiaohua Liu55

Optimizing the Flow of Organizational Information using a Groupware Application
Roland Haas, Arun Kumar Krishnamoorthy and Bharath Chandrasekaran.....62

DISTRIBUTED ENVIRONMENTS

**A Web Service Based Approach to Monitor and Control a Distributed Component
Execution Environment**
Anja Schanzenberger and D. R. Lawrence69

Modelling Overhead in JavaSpaces
F. Hancke, G. Stuer, D. Dewolfs, J. Broeckhove, F. Arickx and T. Dhaene77

Dynamic Replication of Content in the HammerHead Multimedia Server
Jonathan Dukes and Jeremy Jones82

A Design for Networked Multiplayer Games: an Architectural Proposal
Stefano Ferretti and Stefano Cacciaguerra.....88

E-LEARNING AND TRAINING

**The Value Chain of the Learning Organisation: The L(E)RP System Integrating all its
Subfunctions: an Architecture**
Jeanne Schreurs, Rachel Moreau and Ivan Picart95

Applied Multimedia System for Analysis and Mechanical Design of Robot
M. H. Korayem and S. Baghaei98

Web Presentations of 3D Civil Engineering Projects
Gerardo Silva Chandía104

CONTENTS

Mobile Agent based Solutions for Knowledge Assessment in eLearning Environments Mihaela Dinsoreanu, Cristian Godja, Claudiu Anghel, Ioan Salomie and Tom Coffey.....	108
Collaborative Virtual Environment with Personalized Services Valentin Cristea, Stefan Trausan-Matu and Octavian Udrea.....	113
Security Issues with E-Learning Matthew Warren and Michelle McDougall	118

NETWORK MONITORING AND MODELLING

An Approach to a Methodology and Implementation of a Network Monitoring Analysis Tool Elias Aravantinos, Petros Ganos, Aristidis Ilias and Christos Bouras,	125
Self-Similar Traffic: burst size effects on packets delay behaviour C. D'Apice, R. Manzo and N. Likhanov	130
Graphical RTP Session Monitor Using Java media Framework (JMF) Fernando Boronat Segui, Salvador Llopis Torres, Juan Carlos Guerri Cebollada and Manuel Esteve Domingo	136

COMMUNICATION TECHNOLOGIES

Beamforming and Band Allocation for Multiband CDMA Systems D.Alsnour and M.Al-Akaidi.....	143
Performance Evaluation of MQAM in Fading Channels with Diversity O. Alani, M. Al-Akaidi, D Alnsour,.....	148
An Improved Communication Channel in Dynamic Reconfigurable Device for Multimedia Applications Yuuki Soga, Takafumi Yuasa, Tomonori Izumi, Takao Onoye and Yukihiro Nakamura	152

CONTENTS

SECURITY

- A Comprehensive Approach to Eliminating Spam**
Pawel Gburzynski and Jacek Maitan161
- Evaluating the Reliability of Commercially available Biometric Devices**
V. Dimopoulos, J. Fletcher and S.M.Furnell166

MOBILE AND WIRELESS TECHNOLOGIES

- Multi-Client Cooperation and Wireless PDA Interaction in Immersive Virtual Environment**
Elisabetta Farella, Davide Brunelli, Luca Benini, Bruno Riccò and Maria Elena Bonfigli,.....177
- Dynamic Adaptation of Streaming MPEG-4 Video for Mobile Applications**
Robbie De Sutter, Sam Lerouge, Jeroen Bekaert, and Rik Van de Walle185
- WLAN Hierarchical Cooperative Positioning**
Román García, Miguel Sánchez and Carlos Turró191
- Mobility Control Daemon: an Architecture Supporting Seamless Handover between Heterogeneous Networks**
Jian Wu, Paul Havinga, Gerard Smit and Niels Van Der Zwan195

LATE PAPERS

- Effect of Different Parameters of Spectral Efficiency in Cellular Systems**
D.Alsnour and M.Al-Akaidi,.....203
- Development and Implementation of an Internet-based Student Registration System using PHP/4 and MySQL Database**
Jens Lichtenberg, Jorge Marx Gómez and Patrick Stiefel208
