

Preface.....	xx
Scientific Programme	1
Author Index.....	233

Keynotes

Towards Better Food Safety: Linking Predictive Microbiology, Risk Assessment, and System Complexity Enda Cummins	5
Scientific Machine Learning for Biological Systems Satyajeet S. Bhonsale.....	8

Food Safety and Spoilage

Identification and Genetic Characterization of Lactic Acid Bacteria Present in Whey Samples Derived from Cow and Goat-Sheep Milk I. Prountzou, A Thomas, A. Tsakni, D. Vougiouklaki, S. Papatheodorou, S. Letsiou, H. Mavrokefalidou, D. Antonopoulos, H. Stamatis, E. Tsakali, S. Akkermans, J. F.M. Van Impe and D. Houhoula.....	13
DOE-Optimized Jalapeño Seed Extracts: UV-VIS/LC–MS Phenolic Profiles and <i>Listeria Monocytogenes</i> Growth Modeling Thalia Tsiaka, Anthimia Batrinou, Efstathia Tsakali, Vassilia J. Sinanoglou and Spiridon J. Konteles	16
Detection of Bacteriocin-Encoding Genes in Whey Samples derived from Cow and Goat-Sheep Milk D. Vougiouklaki, A Thomas, S. Papatheodorou, I. Prountzou, S. Letsiou, A. Tsakni, D. Antonopoulos, H. Mavrokefalidou, H. Stamatis, I. Sitaras, I. Gregoriou, N. Vassilaki, Satyajeet Sheetal Bhonsale, E. Tsakali and D. Houhoula.....	22

Innovative Food Production and Distribution

Computational Design for a Microwave Assisted Industrial Freeze Drying System Caner Tasci, Huseyin Topcam, Ozan Karatas and Ferruh Erdogan	27
Accessibility of Arthospora Phenolic Compounds extracted by Microwave-Assisted Extraction Sanja Ludoški, Ana M. Gomes, Manuela E. Pintado and Marta C. Coelho	34

Contents

Effect of the Dietary Protein and Fat Content on the Nutritional Quality and Shelf Life of Gilthead Seabream (*Sparus aurata*): A Comparative Study with Atlantic Salmon and Shaoor

A Thomas, T. Tsironi, D. Vougiouklaki, S. Papatheodorou, A. Tsakni, D. Antonopoulos, I. Sitaras, Monika Polanska, E. Tsakali and D. Houhoula.....37

A Discrete Choice Approach to Snack Selection

Sofia Liossi, Anastasia Kanellou and Efstathia Tsakali.....42

Food Process Systems Engineering

Computational Analysis of Scraped Surface Heat Exchangers for Thermal Processing of Ice Cream Mixes

Kubra Bulduk-Sahin, Tuncay Yilmaz, Murat Sahin and Ferruh Erdogan49

About the Modeling of Granular Flow in Rotary Drums

Artemio Plana-Fattori, Kevin Lachin, Elias Daouk, Mikel Leturia, Khashayar Saleh and Marie Debaq.....56

Development of a Computational Model for Microwave de-Crystallization of Honey

Ozan Karatas and Ferruh Erdogan64

Simulation of Coffee Bean Particle Motion in Distinct Roasting Technologies

Mark Al-Shemmeri and Dominik Werner.....69

Sustainable Food Systems Engineering

Operationalizing Sufficiency: Probabilistic Food Resource Management in Off-Grid Eco-Villages using Hybrid Petri Nets

Anant Sujatanagarjuna77

Efficient and Sustainable Cooking: Thermal Dynamics and Fat Composition as Drivers of Energy Consumption

Elena Hernández-Alhambra, Paula Guíu, Ana María Ferrer Mairal, Maria Luisa Salvador, Begoña Calvo, Miguel Ángel Martínez Barca and Jorge Grasa82

Data-Driven Prediction of Water Absorption in Food Soils using Hyperspectral Imaging

Ferren Pratama, Matthew Moore, Peter J. Fryer, Zhenyu J. Zhang and Estefania Lopez-Quiroga90

Optimization of pH, BG11 Concentration and Bicarbonate Supplementation for High-Density Growth of *Synechocystis* sp. PCC 6803

Jiawei Ding, Simen Akkermans, Dmytro Kozak, Satyajeet Bhonsale and Jan F.M. Van Impe.....95

Quantitative Risk Assessment

Risk-Based Prioritisation of Foodborne Pathogens associated with Ready-to-Eat Fresh Produce using a Probabilistic Modelling Framework

Vaibhav Bhatia, Rajat Nag, Michael Gaffney, Catherine M. Burgess, Jesús María Frías Celayeta and Enda Cummins.....101

Human Health Risk Assessment of PFAS through Fish Consumption with Kinetic Bioaccumulation Modelling

Vasiliki Polychronidou and Rajat Nag106

Human Health Risk Assessment of Engineered Nanoparticles through Fish Consumption

Xiangyu Meng and Rajat Nag114

Climate Change and Environmental Impact

Virtual Reality and Serious Gaming for reducing Household Food Waste

Jagoda Hanuszewicz, Clara Fayyad and Charlotte Gerritsen.....121

Spatio-Temporal Analysis of Antimicrobial Resistance in Europe

Lydia Katsini, Prem Kumar Loganathan, Satyajeet Sheetal Bhonsale and Jan F.M. Van Impe.....130

Multiscale Simulation

Multiscale Modelling and Analysis of Interactions in Synthetic Gut Communities

Stylianos Floros, Monika Pradhan, Divina Sablan, Simen Akkermans, Satyajeet S. Bhonsale and Jan F.M. Van Impe135

From Mono- to Polyculture: Microbial Interactions Shaping Short-Chain Fatty Acid Production in an *In-Vitro* Gut Model

Monika Pradhan, Simen Akkermans, Divina Gracia Sablan and Jan F.M. Van Impe.....138

Contents

A Sensitivity-Driven Framework for Optimizing Light Controlled Gene Expression in Bioprocess Systems

Pratham Kapavarapu, Satyajeet S. Bhonsale, Simen Akkermans
and Jan F.M. Van Impe.....143

Deriving Kinetic Models for a Beer Fermentation Process using Yield Analysis

Wannes Mores, Swaminathan Karupannan Marimuthu, Satyajeet S. Bhonsale,
Filip Logist and Jan F.M. Van Impe.....148

HORIZON-MSCA-2022-DN-01-101120449 FAIRomics FAIRification of multiOmics Data to link Databases and create Knowledge Graphs for Fermented Foods

Optimal Transport for Database Integration: A Nutritional Case Study

Flore N'kam Suguem153

Searching for Synergistic Bacterial Partners to improve Lentil Flour Fermentation by *Pleurotus Ostreatus*

Isa Hollopp, Eric Dugat-Bony, Pascal Bonnarme, Lukas Y. Wick
and Vincent Hervé161

Natural Fermentation of Black Conservolae and Kalamata Olives: Microbiological and Physicochemical Responses

Maria-Vagia Oikonomou, Eleni Kollia, Foteini Roumani, Efsthios Z. Panagou,
Marilena Dasenaki and Vasilis Valdramidis165

Extracting Food-Fermentation Knowledge using an NER Framework from Biological and Chemical Domains with LLM-Assisted Silver Annotations

Xingyu Zhu.....168

PBFF-KG: A FAIR Knowledge Graph towards Sustainable Design of Plant-Based Fermented Foods

Amgad Abdulmaqsod, Reda Ihtassine, Caroline Pénicaud, Anne Saint-Eve,
Lucia Brisset, Axel-Cyrille Ngonga Ngomo and Mohamed Ahmed Sherif.....173

Community Detection in a Plant-based Fermentation Knowledge Graph

Zoé Le Roux, Alessandra Merlotti, Francesco Durrazi, Daniel Remondini,
Sandra Dérozier and Hélène Chiapello.....179

Automated Detection of Metabolic Switches and Key Regulators: Application to *Lactococcus lactis* Fermentation

Hashmat Bakshi and Irene Otero-Muras.....182

Ecologically Mediated Relationships among Food Phenotypes

Pedro Duarte, Francesco Durazzi and Daniel Remondini.....187

PIDE-Based Uncertainty Quantification in Stochastic Gene Regulatory Networks	
Francisca Pizarro, Satyajeet Bhonsale and Jan F.M. Van Impe	193
A Systematic Assessment of Generalized Lotka-Volterra Model Reliability for Microbial Interaction Inference	
Saeed Salehi, Satyajeet Sheetal Bhonsale, Jan F.M. Van Impe and Eva Balsa-Canto	196
Erasmus+ CBHE FIND4S Enhancing Higher Education Capacity for Sustainable Data Driven Food Systems in INDONESIA	
Modeling the Dynamics of Milk Fat Globule Size Distribution in Fat-Filled Goat Milk during Pasteurization and Storage	
Yoga Pratama, Mario Benediktus Sutanto, Lutfi Purwitasari and Ulil Afidah.....	203
Dynamic Modeling of Blue Swimming Crab Value Chains: A Sustainable Engineering Framework for Indonesian Fisheries	
Muhammad Yusuf, Sidney Akumu Odongo and Agus Suyanto	206
Optimum Processing Conditions of Cascara Kombucha: Maximum Antioxidant and Phenolic Content after Drying and Brewing	
Muhammad I. F. Gunawan, Afif Arwani, Alifa R. Faradiani, Arum S. Dewi, Dwitya Kurniati, Kharisma I. Listyorini, Nabila F. Iskandar, Akmal Reyhan, Nada S. R. Duhita and Pradipta Bayuaji Pramono.....	210
Development of a Hygienic Process for Traditional Mashed Cassava from Magelang (Getuk Magelang)	
Suyitno, Cahyo Wibi Yogiswara, Ikhwan Taufik, Muhammad I.F. Gunawan, Alifa R. Faradiani, Nabila F. Iskandar and Arum S. Dewi.....	216
Predictive Modelling of Black Soybean Ice Cream Enriched with Red Bean Juice and Dragon Fruit Peel Extract for Functional Frozen Dessert Development	
Enny Purwati Nurlaili, Eka Mardiana, Heru Prastawa and Zainal Fanani Rosyada	222
Modeling Proximate Composition in Catfish-Enriched Tempeh as a Traditional Indonesian Fermented Food	
Martina Widhi Hapsari, Lusiawati Dewi and Novia Anggraeni	227
