

Preface	VII
Scientific Programme	3
Author Listing	65

BUSINESS MODEL SIMULATION

Simulation in the Catering Services Industry: The Case Study of Equilibre & Saveurs Anastasia Dacquet and Elias A. Hadzilias	5
--	----------

Let's be serious – ICT is not a (simple) game A. Eliens and T. Chang	10
--	-----------

Assessment of Process Networks using Graph and Network Theory Based Key Figures Matthias Kreimeyer, Markus Eichinger and Udo Lindemann	13
--	-----------

Product Model Driven Development Julia Roelofsen, Wolfgang Lauer and Udo Lindemann	20
--	-----------

DATAMINING AND MANAGEMENT INFORMATION SYSTEMS

Using the Intermeans Parameter to Model the Textile Demand: Datamining and Simulations Pierre L.Douillet and Besca Rabenasolo	29
---	-----------

Directed Access of Multichannel E-Commerce Systems to Data Sources of Integrated SME Information Systems Christian-Andreas Schumann, Claudia Tittmann, Michael Didszun, Egon Müller, Ralph Riedel, Andreas Rutsch, Jörg Wolle, Jochen Schwend and Josef Zihlmann.....	34
---	-----------

ICT Security Management Jeanne Schreurs and Rachel Moreau.....	39
--	-----------

Kriging in Constrained Optimization of Computer Simulations William E. Biles, Jack P. C. Kleijnen and Wim C.M.van Beers.....	44
--	-----------

CONTENTS

GUIDED VEHICLE SIMULATION

Lightweight UAV Simulation for use in Multi-Agent Human-in-the-Loop Experiments

Bram de Beer and Michael Lewis51

Simulation of a Sensorguided Industrial Robot for Add-on Part Mounting

Andreas Domke57
