CONTENTS

Preface .......................................................................................................................... XI
Scientific Programme .................................................................................................. 1
Author Listing ............................................................................................................ 61

RISK MANAGEMENT

Analysis of the Subjects’ Attitude toward Risk and Ambiguity in the
Financial Game through a Bayesian Network
Irene Comeig, Pilar Fuster-Parra and Ainhoa Jaramillo-Gutiérrez ..................5

Future Decision-Makers and Complexity: Learning Problem structuring
through System Dynamics
Eliseo Vilalta-Perdomo ............................................................................................... 13

MANAGEMENT TECHNIQUES

A Concurrent Design Approach and Model Management Support to Prevent
Inconsistencies in Multidisciplinary Modelling and Simulation
Xiaochen Zhang and Jan F. Broenink ....................................................................... 21

Implementation and Management of Master Geometry in Multifunctional
Design Environment
Tümay Mart and Can Cangelir ................................................................................... 29

Towards 3D Crowdsourcing: Easing Web3D Navigation Using User Traces
Thi Phuong Nghiem, Axel Carlier, Geraldine Morin and Vincent Charvillat .... 34

PRODUCTION DESIGN OPTIMIZATION

Global Optimization Techniques in the Design of the Electric Power Lines
Ovidiu Alupei Cojocariu, Szilard Feher and Nicolae Vasiliu ............................... 41

Multi-Camera Complexity Assessment System for assembly line work stations
Karel Bauters, Hendrik Van Landeghem, Dirk Van Haerenborgh,
Maarten Slembrouck, Dimitri Van Cauwelaert, David Van Hamme,
Peter Veelaert and Wilfried Philips ........................................................................... 46
CONTENTS

VIDEO APPLICATIONS

Researches on Depth Image Haptization System with Local Deformation
Xiangning Liu, Tatsunori Muraishi, Katsuhito Akahane and Makoto Sato........53
