

<b>Preface</b> .....	<b>IX</b>
<b>Scientific Programme</b> .....	<b>1</b>
<b>Author Listing</b> .....	<b>85</b>

## TUTORIAL

<b>How do we safely distribute Random Streams to our Parallel Stochastic Models?</b> David R.C.Hill.....	<b>5</b>
---	----------

## SIMULATION AND VR GAMING APPLICATIONS

<b>Simulation of Soft-Looking Facial Expressions</b> Hlavacs Helmut and Leon Beutl.....	<b>13</b>
<b>Eigenplaces for Segmenting Exhibition Space</b> Kingkarn Sookhanaphibarn, Ruck Thawonmas and Frank Rinaldo .....	<b>21</b>

## GAMER ANALYSIS AND GAME MANAGEMENT

<b>A Game on profiling Learning Styles</b> Sook-Yee Edna Chan, Seng Chun Alvin Tang and Huei Wuan Low-Ee.....	<b>29</b>
<b>Using Monte Carlo Planning for Micromanagement in Starcraft</b> Wang Zhe, Kien Quang Nguyen, Ruck Thawonmas and Frank Rinaldo .....	<b>33</b>

## ENHANCED REALITY GAMING

<b>Device-to-Device Communication Framework Supporting Indoor Positioning System for Location-aware Interactive Applications</b> Kosuke Kaneko, Tomoyuki Nakamura, Yoshihiro Okada, Dae-Woong Kim and Hiroyuki Matsuguma .....	<b>39</b>
<b>Changing the rules: Acquiring Quality Assured Geospatial Data with Location-based Games</b> Sebastian Matyas, Peter Kiefer and Christoph Schlieder.....	<b>44</b>

## GAME SPEECH TECHNOLOGY

<b>Towards Usability Heuristics for Games Utilizing Speech Recognition</b> Aki Halonen, Sami Hyrynsalmi, Kai K.Kymppa, Timo Knuutila, Jouni Smed and Harri Hakonen.....	<b>51</b>
--	-----------

## **CONTENTS**

<b>3D Terrain Generation and Texture Manipulation by Voice Input</b> Umair Azfar Khan and Yoshihiro Okada .....	<b>56</b>
--	-----------

## **SIMULATION METHODOLOGY AND AI**

<b>BOCBPN: An Object Oriented Petri Net for Cell Modelling Based on Software Engineering Concepts</b> Tiraihi A. and Shams F.....	<b>63</b>
--	-----------

<b>A Novel Approach using Hybrid Artificial Neural Networks for Prediction of TBM Performance and Disaster Risk in Complex Geological Environments</b> Hai V. Pham and Katsurari Kamei .....	<b>68</b>
---	-----------

<b>Hybrid Intelligent Decision Support System Model for Simulation of Disaster and Weather Forecasting</b> Hai V. Pham and Katsurari Kamei .....	<b>73</b>
---	-----------

## **LATE PAPER**

<b>Knowledge Production and Surveillance in Game Communities: The Practice of Theorycrafting</b> Karin Wenz .....	<b>79</b>
--	-----------
