

Preface	XI
Scientific Programme	1
Author Listing	165

GAME METHODOLOGY

WEBBING: A Smart Architecture for Snappy Browser–Based Games Alessandro Amoroso.....	5
Towards a High-level design Approach for Multi-Server Online Games Alexander Ploss, Frank Glinka, Sergei Gorlatch and Jens Muller-Iden.....	10
A Framework for Network-Agnostic Multiplayer Games Patric Kabus and Alejandro P. Buchmann.....	18
Mobile Virtual Worlds: A Proximity Based Evolution Stefano Cacciaguerra and Gabriele D’Angelo.....	27
Journey from the Magic Circle to the Therapeutic Gameplay Experience Balázs Józsa.....	32

GAME AI

Data Analysis for Ghost AI Creation in Commercial Fighting Games Worapoj Thunputtarakul and Vishnu Kotrajaras.....	37
Temporal Difference Control within a Dynamic Environment Leo Galway, Darryl Charles, Michaela Black and Colin Fyfe.....	42
Evaluation of Multiagent Teams via a New Approach for Strategic Game Simulator Vicente V. Filho, Claurton A. Siebra, José C.Moura, Renan T.Weber, Patrícia C. Tedesco and Geber L. Ramalho.....	48
Map-Adaptive Artificial Intelligence for Video Games Laurens van der Blom, Sander Bakkes and Pieter Spronck.....	53
Opponent Modeling in Real-Time Strategy Games Frederik Schadd, Sander Bakkes and Pieter Spronck.....	61

ART, DESIGN AND GRAPHICS

PANORAMA -- Explorations in the Aesthetics of Social Awareness Anton Eliëns and Dhaval Vyas.....	71
--	-----------

CONTENTS

Issues for Multiplayer Mobile Game Engines Abhishek Rawat and Michel Simatic.....	76
---	----

YEAST: The Design of a Cooperative Interactive Story Telling and Gamebooks Environment Paola Salomoni, Silvia Mirri and Ludovico Antonio Muratori.....	83
--	----

Simulating Infinite Curved Spaces using Vertex Shaders M. C. Bouterse and A. Eliëns.....	88
--	----

MOBILE GAMING

Mobile Games: What to expect in the near Future Marco Furini.....	93
---	----

Simple, Cheap and Quick: Three Urban Games for Common Mobile Phones Helena Karsten, Jan-Erik Skata, Sebastien Venot, Nhut Do, Janne Konttiila, and Joonas Peltola	96
---	----

ONLINE GAMING AND SECURITY

Towards Swift and Accurate Collusion Detection Jouni Smed, Timo Knuutila and Harri Hakonen	103
--	-----

Behavioral Biometrics for Recognition and Verification of Game Bots Roman V. Yampolskiy and Venu Govindaraju	108
--	-----

The Anatomy of an Inter-Vehicular Gaming Communication Subsystem with Experiments Emiliano Manca, Fabio Parmeggiani, Claudio E. Palazzi, Stefano Ferretti and Marco Rocchetti	115
---	-----

EDUCATION

Clima Futura @ VU -- communicating (unconvenient) science Anton Eliëns, Marek van de Watering, Hugo Huurdeman, Winoe Bhikharie, Haroen Lemmers and Pier Vellinga	125
--	-----

Mashups in Second Life @ VU Anton Eliëns, Frans Feldberg, Elly Konijn and Egon Compter.....	130
---	-----

Teaching AI Concepts by Using Casual Games: A Case Study Cesar Tadeu Pozzer and Börje Karlsson.....	135
---	-----

EGO: an E-Games Orchestration Platform

Davide Rossi and Elisa Turrini139

SERIOUS GAMING

Gaming Technology in Cultural Heritage Systems

Tim Horz, Albert Pritzkau, Christof Rezk-Salama, Severin S. Todt and
Andreas Kolb147

AIBO as a Needs-Based Companion Dog

José M. Blanco Calvo, Dragos Datcu and Leon J.M. Rothkrantz152

Agent Based Virtual Tutorship and E-Learning Techniques Applied to a Business Game Built on System Dynamics

Marco Remondino.....157
