

<b>Preface</b> .....	<b>IX</b>
<b>Scientific Programme</b> .....	<b>1</b>
<b>Author Index</b> .....	<b>95</b>

## **KEYNOTE**

<b>Guidelines and Case Studies on Collaboration with Computer Game Industry for Academic Research and Education</b> Gary Ushaw, Richard Davison and Graham Morgan .....	<b>5</b>
--	----------

## **GAMING ENVIRONMENTS CREATION**

<b>Macro-Controlled Generation of Geometry Using Vector Fields and their Application</b> Robert Roth and Bernard Beitz .....	<b>13</b>
---	-----------

<b>GAN-Based Content Generation of Maps for Strategy Games</b> Vasco Nunes, João Dias and Pedro A. Santos .....	<b>20</b>
--	-----------

<b>Playable Characters in Digital Games: A Genre Taxonomy Proposal</b> Tânia Ribeiro and Ana Isabel Veloso .....	<b>32</b>
---	-----------

## **PLAYER ANALYSIS**

<b>Player Needs Inventory (PNI): An Analytical Framework for Analyzing Player Motives in Video Games</b> Barbaros Bostan and Diğdem Sezen .....	<b>41</b>
--	-----------

<b>Passive Collaboration and Connections in a ‘Strand Game’: Changing the Way We play</b> Barbaros Bostan and Sercan Şengün .....	<b>48</b>
--	-----------

<b>Creation of Digital Games for Environmental Awareness by Young Adult Students: Systemization and Critical Analysis of the Process</b> Tanira M. H. Suandique, Pedro Beça and Monica Aresta .....	<b>56</b>
--	-----------

# Contents

## VR GAMING ENVIRONMENTS

### **Minogrid: A Framework for the Creation of Virtual Reality Experiment and Therapy Applications**

Christoph Pressler, Patrick Pazour, Daniel Martinek, Helmut Hlavacs and Charly Harbord.....67

### **Interaction Design in Virtual Reality and Games: From a Comparative Human Social and Psychological Needs Perspective**

Li Zheng and Mei Si .....75

## BOARD GAMES PROGRAMMING

### **Playing at Class: Increasing the Awareness of Tabletop Game Design for Videogame Development**

Micael Sousa and Ivan Barroso .....81

### **Designing Programming Exercises from Board Games**

Maxim Mozgovoy and Marina Purgina .....89
