

Contents

Preface	XIII
Scientific Programme	1
Author Index	147

Keynote

RPGS, Simulations, and the Human Element Chrissy Mackey.....	5
--	----------

Simulation Optimization

Producing 185 different Products for Inventory using Statistical Optimization with Averaging William Conley	15
Multi Stage Monte Carlo Optimization applied to a large Nonlinear Problem with Five Range Sizes for the Variables William Conley	21
DNA-Inspired Genetic Algorithm Modification Gergana Mateeva, Dimitar Parvanov and Todor Balabanov.....	27

Verification, Analysis and Predictions

To which Extent are Simulation Research Papers related to the Real World? – A Survey on the Use of Validation Methods Anne Vonderheide and Matthias Becker.....	35
Risk Visualisation for Trustworthy Intelligent Contracts Georgios Stathis, Athanasios Trantas, Giulia Biagioni and Jaap van den Herik	53
Adaptive Filtering and Deep Learning for Stock Price Predictions Samwel Portelli and Kenneth Scerri.....	58

Human Behaviour Simulation

Identifying Compulsive Gamblers Using Bayesian Networks Mark A. Caruana and Christian A. Farrugia	67
---	-----------

Contents

Meta-Analysis to Study the Promotion Effect of Protective Factors in Mental Health

Liberato Camilleri, Emma Scicluna and Joeline Camilleri72

Student and Teacher Acceptance of a Virtual Reality Nuclear Simulation Learning Environment

Jeroen Ceyskens, Wim Eerdeken, Wouter Schroevers and Fabian Di Fiore ..77

Pest and Disaster Management

A Study of Insect Management Models in Agriculture

Matthias Becker and Kin-Woon Yeow.....89

A Competent Emergency Information System for Natural Disasters

K. Papatheodosiou and C. Angeli96

Casualty Evacuation Resources in Disaster Situations: Does the Quantity really matter?

Mehdi Benhassine, Filip Van Utterbeeck, Ruben De Rouck, Michel Debacker, Ives Hubloue; John Quinn and Erwin Dhondt101

Lean Process Supply Chain Simulation

Estimating the Impact of Waste Reduction through Simulation Case Study of a Car Maintenance Company

Vitor Anes, António Abreu, Ana Dias and João Calado109

Comparison of Collaborations based on Data Sharing in a Pharmaceutical Supply Chain

Mohammad Amin Yazdani, Daniel Roy and Sophie Hennequin117

Improvement of the Distribution of Petroleum Products in Nigeria: A Simulation-Based Approach

Olanrewaju Isaac Adenekan, Aimé Nyongue and Sophie Hennequin123

Simulation in Engineering

A Theoretical Modeling of Electro-Shear Behavior of Carbon Nanotubes Embedded Epoxy Nanocomposite

Sen Yang, Vijaya Chalivendrs and Yong K. Kim.....131

Contents

Nonparametric Kernel Regression to investigate Factors affecting Heating/Cooling Efficiency of Building Liberato Camilleri and Martina Scicluna.....	139
--	------------
