Scientific Programme	1
Author Listing	73

INVITED PRESENTATIONS

An Easy to Learn System for Simulation of Business Problems Ingolf Ståhl	5
--	----------

Commercial Simulation Software for Modeling and Analysis of Vehicle Powertrain Systems Valerian Croitorescu and Jan Anthonis	12
--	-----------

ACADEMIC TOOLS

Soft Computing Tools for the Analysis of Complex Problems Christina Klüver and Jürgen Klüver	23
--	-----------

A New Approach to 3D Simulation Technology as Enabling Technology for eRobotics Jürgen Rossmann, Michael Schluse, Christian Schlette and Ralf Waspe	31
---	-----------

Estimating Project Risks' Probability with Limited Statistical Data Michael Douloumpakis, Vrassidas Leopoulos, Elena Rokou and Konstantinos Kirytopoulos	39
--	-----------

COMMERCIAL TOOLS

Multi-Method Modeling Andrei Borshchev	47
--	-----------

Human-and Hardware-in-the-Loop Simulator for Studying Vehicle Longitudinal Dynamics Ionuț Stoica, Marius Bățăuș and Valerian Croitorescu	56
--	-----------

Simulation with ARENA of Two-Machine Flowshop Scheduling Using Modified Johnson Rule Fawaz Abdulmalek	61
---	-----------

Simulation Languages Facilities for Innovation Puhalschi Radu, Feher Szilard, Vasiliu Daniela, Vasiliu Nicolae and Irimia Petru Cristinel	66
---	-----------
