The registration desk will be placed in the hallway of the University of Palermo from Monday June 5th morning onwards, where registration will start at 08.00 and will end at 17.30. On Tuesday June 6th registration will be from 8.30 a.m. - 17.00 p.m. with Wednesday registration only from 8.30 a.m. - 9.00. a.m.

ALL MAPS ARE AT THE BACK OF THIS PROGRAMME

How to get to the University:

Falcone e Borsellino Airport (Palermo) is the closest airport to Palermo, located at Punta Raisi, about 32km (20 miles) far from the university campus. The airport is well connected with Palermo by a light rail service (Trinacria Express), with trains running all day long between the airport and Palermo Central Railway Station. One of the stops along the route, called Orleans, is located just in front of the main entrance of the University campus. The airport is also connected to Palermo by motorway, and a regular service of coaches connects the terminal with the town centre (one way ride about 50 mins).

The **Italian Railways** offer daily connections with the European railway network, and provides daily connections with all the Italian major cities from Palermo's central rail station. Several night and day train services run from Palermo to Rome (journey about 12 hrs) and from Palermo to Milan (17-18 hrs)

by car: drive along the A19/20 motorway from Catania/Messina towards Palermo; once entering Palermo's area, A29 will become a urban ring road called Viale Regione Siciliana. Keep driving along Viale Regione Siciliana in the west-bound direction (towards Trapani), till you get to the crossing with Via Ernesto Basile. Turn to the right (in the direction towards the sea) to enter Via Ernesto Basile. After a couple of miles driving down Via Ernesto Basile you get the university campus located on your left. Now you can easily drive into the campus by following the street signs.

by light rail metro: departures from Palermo's main railway station with stops located along the route within the town. Getting off at *Orleans* metro stop, you will be in front of one of the main entrances to the campus, at walking distance from DIMA (5 mins).

EUROSIS was borne out of discussions with the European Community to set up a new kind of Society, which would be project driven instead of driven by pure membership and conferences.

The aim of the new Society will be to set up topic related Technical Committees which will link directly to European Projects in the field of computer simulation and related areas and to act as a knowledge pool for future European Networks of Excellence, like MOSAIC. A first general information meeting is scheduled for ESM2007 in Toulouse in October 2007.
